

Meeting Notes

Abstract Summary

The speaker discusses two projects. The first involves an AI-powered itinerary generator focused on tourism, tours, and trips. The second project, referred to as "Talk to Pro," is about generating meeting minutes from audio uploads, extracting key points and important information. The speaker is generating audio to test the projects and see the output.

Key Points

- . Two projects are under discussion: an AI-powered itinerary generator and a meeting minute generator.
- . The itinerary generator is designed for tourism-related activities.
- . "Talk to Pro" aims to generate minutes of meeting from audio recordings.
- . The audio is being generated to test the output of these projects.

Action Items

1. Test the AI-powered itinerary generator and review the output.
2. Test the "Talk to Pro" software by uploading audio and checking the generated minutes.

Sentiment

The speaker seems informative and focused on understanding the capabilities of the projects. They are testing to gain better understanding of how they work and their performance.
